OBJECTIVE

"Aspiring UI/UX Designer with a passion for solving user problems through clean, intuitive design. Skilled in Figma, user flows, and prototyping. Eager to contribute to innovative digital experiences and grow in a collaborative design environment."

SUMMARY

Entry-level UI/UX Designer with experience creating responsive landing pages, personal design projects, and a background in engineering and client consulting. Skilled in Figma, user flow design, and collaborating with teams to build intuitive digital experiences.

TECHNICAL SKILLS

Design Tools : Figma, Adobe Photoshop, Illustrator

Frontend : HTML, CSS, Python

Version Control : Git, GitHub

Other : MySQL

Concepts: Object – Design Thinking, User Flows, Wireframing, Prototyping, OOP

PROJECTS

Portfolio Website Design

- Developed personal portfolio website using Figma, Photoshop

Landing Page Design

- Designed a responsive landing page using Figma following a complete design process — from user research and wireframing to high-fidelity prototyping. Focused on clean layout, accessibility, and mobile responsiveness.

Personal Landing Page Design

- Conceptualized and designed a responsive landing page as part of a personal UI/UX practice initiative.
- Focused on clean layout, strong visual hierarchy, and intuitive user flow.

EDUCATION

Bachelor of Technology in Civil Engineering

Gandhi academy of engineering and technology, Berhampur

Graduated: 2021-2022 | CGPA: 8.3/10

EXPERIENCE

Cad Designer , Aabsys it

Bhubaneswar 2024– Present

- Collaborated with teams to gather user requirements and propose design solutions — laying a foundation for understanding user needs and translating them into practical designs.

Partner Consultant, Myntra

Bangalore 2023– 2024

- Worked closely with business partners to optimize digital experience and align product presentations with UX best practices.
